

ALC HEALTH CARE SERVICES

Your In-Home Care Expert

HOME HEALTH CARE vs. HOME SERVICES

Two important types of in-home care. Different focus. Same goal:
helping you or your loved one live safely and comfortably at home.

 HOME HEALTH CARE Medical care by licensed professionals		 HOME SERVICES Non-medical support for daily living
 FOCUS Skilled medical care to treat an illness, injury, or condition.	 FOCUS	 FOCUS Help with everyday tasks so you or your loved one can live safely and comfortably at home.
 PROVIDED BY Licensed healthcare professionals such as nurses, therapists, and home health aides.	 PROVIDED BY	 PROVIDED BY Trained caregivers or personal care aides.
 EXAMPLES OF CARE <ul style="list-style-type: none"> • Skilled nursing care • Physical, occupational, or speech therapy • Wound care • Disease education & monitoring 	 EXAMPLES OF CARE	 EXAMPLES OF SUPPORT <ul style="list-style-type: none"> • Personal care (bathing, dressing, grooming) • Meal preparation • Light housekeeping & laundry • Transportation & errands • Medication reminders • Companionship
 PAYMENT Often covered by Medicare, Medicaid, or insurance when medical criteria are met. A doctor's order is usually required.	 PAYMENT	 PAYMENT Typically private pay. Not covered by Medicare.
 Home Health Care is clinical care focused on recovery, treatment, and managing health conditions.		 Home Services provide non-medical support that helps maintain independence and quality of life at home.

ALC Health Care Services offers a full continuum of in-home care:

Primary Care • Home Health • Advanced Wound Care • Palliative Care • Hospice • Home Services • Transportation
